Royal Park of Artillery of 6 Medium 12 Pounders.—6 heavy 6 Pounders—2 8-Inch, and 4 Royal Howitzers, with 180 Waggons, loaded with Powder, Bal and working Implements.

DIRECTIONS FOR ENCAMPING.

THE Quarter-Guard Tents are placed in a line with thoſe of the two Center Companies, fronting each other.—The Officers Tent fronts the Bell of Arms.—The Bells of Arms of the Regiments front the Poles of the Serjeants Tents.—The Colours are placed in the Center of the grand Street, in a line with the Bells of Arms.—Captains and Subalterns pitch in the rear of their reſpective Companies. The Captain-Lieutenant as Captain in the rear of the Colonel's Company. The Field Officers front the Centers of the two Streets on the right and left of the Battalion. The Colonel fronts the Colours. The Staff-Officers front the Streets on the right and left of the grand Street. The Bat-mens Tents front their Horſes. The grand Sutler is placed in the rear of the Colonel.—The inner diameter of the Kitchen is 16 feet, ſurrounded with a trench 3 feet broad, and the earth thrown inwards—They ſtand ſingly or in pairs behind their reſpective Companies.—The front Poles of the Petit Sutlers Tents, or Huts, are in a line with the centers of the Kitchens, allowing to each Petit Sutler 6 yards in front, and 8 in depth, incloſed with a trench 1 foot in breadth, and the earth thrown inwards.—The Rear-guard's Tents front outwards. They are diſtant from each other 6 yards, and their Poles are in a line with the center of their Bell of Arms. The Parade of the Rear-guard is 4 yards diſtant from the Bell of Arms.—As often as circumſtances will permit, the Neceſſaries ſhould be 100 paces behind the Rear-guard.—But where there is a ſecond Line of Encampment, as in that in the rear of the firſt Brigade, a much leſs diſtance ſuffices.—Where Field-pieces with Artillery-men are attached to the Battalions, the intervals are 30 yards; and where they are not, the intervals are 20 yards.
